

Lakeview Ministries Statement Regarding COVID-19

As you know, we are currently facing the global spread of COVID-19. You may be wondering what effect this will have on camp, especially our summer programs. Please be assured that we are in regular communication with our local Health Department to assure that we are doing everything possible to support the efforts to slow and stop the spread of this illness.

Because the situation is changing daily, there is much we can only guess as to how COVID-19 might affect camp this summer. We are committed to the care of our staff, guests, and campers and will continue to monitor the situation closely in the coming weeks and months. We will regularly update you about our plans, policies, and new procedures in response to COVID-19.

We are currently reviewing and updating our policies and procedures in connection to our healthcare, on-site cleanliness and support of guests who have concerns. We are also creating actionable steps that will allow us to continue to provide the safe and hospitable environment that Lakeview Ministries is known for.

For now, you can join us in praying for this situation:

- Praise God that it appears children are not at an increased risk factor from this virus.
- Pray for wisdom for the Lakeview staff, that we may respond wisely and responsibly to decisions and challenges stemming from COVID-19
- Pray for all those affected by COVID-19, and protection for those most at risk.

More information on COVID-19 is available at <https://www.cdc.gov/coronavirus>. If you have additional questions about the situation, please contact our office at **812-342-4815**. And take heart! We serve a God who is even bigger than our biggest problems, and we have His promise that He will work any situation for His glory and good.
